

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (original): A gaming device comprising:

a game;

a base including at least two characteristics in the game; a plurality of selections, each of the selections including at least two characteristics; and

a processor operable to:

(i) determine a number of the selections to display to a player in the game based on a wager made by the player;

(ii) enable the player to pick selections until none of the characteristics of the unpicked selections match one of the characteristics of the base or until there are no selections remaining;

(iii) determine an award based on the picked selections which includes at least one characteristic that matches one of the characteristics of the base; and

(iv) provide the award to the player when none of the characteristics of the unpicked selections match one of the characteristics of the base or when there are no selections remaining in the game.

Claim 2 (original): The gaming device of Claim 1, wherein the number of selections displayed in the game is determined according to at least 25 one of: a random determination and a pre-determination.

Claim 3 (original): The gaming device of Claim 1, wherein each of the picked selections replaces the base for subsequent selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 4 (original): The gaming device of claim 1, wherein a randomly generated selection replaces each of the picked selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 5 (original): The gaming device of Claim 1, wherein each of the picked selections is removed when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 6 (original): The gaming device of Claim 1, wherein each characteristic of the base and the selections are chosen from a set of characteristics, and the number of characteristics in each set of characteristics is equal.

Claim 7 (original): The gaming device of Claim 1, wherein each characteristic of the base and the selections are chosen from a set of characteristics, and the number of characteristics in each set of characteristics is unequal.

Claim 8 (original): The gaming device of Claim 1, wherein the base and the selections include cards selected from at least one deck of playing cards.

Claim 9 (original): The gaming device of Claim 1, which includes a functional element associated with at least one of the selections.

Claim 10 (original): The gaming device of Claim 9, wherein the functional element is a wild characteristic.

Claim 11 (original): The gaming device of Claim 10, wherein the base includes a wild characteristic.

Claim 12 (original): The gaming device of Claim 1, wherein the award is based on the number of picked selections which includes at least one characteristic that matches one of the characteristics of the base.

Claim 13 (original): The gaming device of Claim 1, wherein the award increases for each subsequent picked selection which includes at least one characteristic that matches one of the characteristics of the base.

Claim 14 (original): The gaming device of Claim 1, wherein the award is based on at least one of the characteristics of the selections that matches one of the characteristics of the base.

Claim 15 (original): The gaming device of Claim 14, wherein the award associated with each of the at least one characteristics is different.

Claim 16 (original): The gaming device of Claim 14, wherein the awards associated with a plurality of the characteristics are different.

Claim 17 (original): The gaming device of Claim 14, wherein the award associated with a wild characteristic is different from the awards associated with the other characteristics.

Claim 18 (original): The gaming device of Claim 1, which includes a bonus award provided to the player when the player picks a plurality of the 25 selections in the game.

Claim 19 (original): The gaming device of Claim 1, which includes a bonus award provided to the player when the player picks all of the selections in the game.

Claim 20 (original): The gaming device of Claim 1, wherein at least one of the selections includes a modifier.

Claim 21 (original): The gaming device of Claim 20, wherein the modifier includes a multiplier.

Claim 22 (original): A gaming device comprising:

- a game;
- a plurality of rounds in the game;
- a base in each round, said base including at least two characteristics;
- a plurality of selections, each of the selections including at least two characteristics; and
- a processor operable to:
 - (i) determine a number of rounds in the game based on a wager made by a player;
 - (ii) determine a number of the selections to display to a player in an initial round based on the wager made by the player;
 - (iii) enable the player to pick selections in the initial round until none of the characteristics of the unpicked selections match one of the characteristics of the base or until there are no selections remaining in the initial round;
 - (iv) determine an award based on the picked selections which includes at least one characteristic that matches one of the characteristics of the base;
 - (v) initiate any remaining subsequent round when at least one characteristic of each of the selections in the initial round matches one of the characteristics of the base;
 - (vi) provide a total award to the player associated with the determined award in each of the rounds when none of the characteristics of the unpicked selections match one of the characteristics of the base in one of the rounds or when there are no rounds remaining in the game.

Claim 23 (original): The gaming device of Claim 22, wherein the number of rounds in the game is randomly determined based on the wager made by the player.

Claim 24 (original): The gaming device of Claim 22, wherein the number of rounds in the game is predetermined based on the wager made by the player.

Claim 25 (original): The gaming device of Claim 22, wherein the number of selections displayed in each of the rounds is randomly determined based on the wager made by the player.

Claim 26 (original): The gaming device of Claim 22, wherein the number of selections displayed in each of the rounds is predetermined based on 15 the wager made by the player.

Claim 27 (original): The gaming device of Claim 22, wherein each of the picked selections replace the base for subsequent selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 28 (original): The gaming device of claim 22, wherein a randomly generated selection replaces each of the picked selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 29 (original): The gaming device of Claim 22, wherein each of the picked selections is removed when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 30 (original): The gaming device of Claim 22, which includes a modifier associated with each of the rounds, wherein the total award is based on the determined award or awards modified by the modifier in each of the rounds.

Claim 31 (original): The gaming device of Claim 30, wherein the modifier is different in each of the rounds.

Claim 32 (original): The gaming device of Claim 30, wherein the modifier is different in a plurality of the rounds.

Claim 33 (original): The gaming device of Claim 30, wherein the modifier increases, decreases or remains unchanged in each of the rounds.

Claim 34 (original): The gaming device of Claim 30, wherein the modifier increases, decreases or remains unchanged in a plurality of rounds.

Claim 35 (original): The gaming device of Claim 30, wherein the modifier associated with each of the rounds is randomly determined.

Claim 36 (original): The gaming device of Claim 30, wherein the modifier associated with each of the rounds is predetermined.

Claim 37 (original): The gaming device of Claim 30, wherein the modifier 25 associated with each of the rounds is determined based on a wager made by the player.

Claim 38 (original): The gaming device of Claim 30, wherein the modifier associated with each of the rounds includes a multiplier.

Claim 39 (original): The gaming device of Claim 22, wherein each characteristic of the base and the selections are chosen from a set of characteristics, and the number of characteristics in each set of characteristics is equal.

Claim 40 (original): The gaming device of Claim 22, wherein each characteristic of the base and the selections are chosen from a set of characteristics, and the number of characteristics in each set of characteristics is unequal.

Claim 41 (original): The gaming device of Claim 22, wherein the base and the selections include cards selected from at least one deck of playing cards.

Claim 42 (original): The gaming device of Claim 22, which includes a functional element associated with at least one selection.

Claim 43 (original): The gaming device of Claim 42, wherein the functional element is a wild characteristic.

Claim 44 (original): The gaming device of Claim 43, wherein the base includes a wild characteristic.

Claim 45 (original): The gaming device of Claim 22, wherein the award is based on the number of picked selections which includes at least one characteristic that matches one of the characteristics of the base.

Claim 46 (original): The gaming device of Claim 22, wherein the award increases for each subsequent picked selection which includes at least one characteristic that matches one of the characteristics of the base.

Claim 47 (original): The gaming device of Claim 22, wherein the award is based on at least one of the characteristic that matches one of the characteristics of the base.

Claim 48 (original): The gaming device of Claim 47, wherein the award associated each of the characteristics is different.

Claim 49 (original): The gaming device of Claim 47, wherein the award associated with a plurality of the characteristics are different.

Claim 50 (original): The gaming device of Claim 47, wherein the award associated with a wild characteristic is different from the awards associated with the other characteristics.

Claim 51 (original): The gaming device of Claim 22, wherein the award is different in each of the rounds.

Claim 52 (original): The gaming device of Claim 22, wherein the award is different in a plurality of the rounds.

Claim 53 (original): The gaming device of Claim 22, wherein the award is randomly determined.

Claim 54 (original): The gaming device of Claim 22, wherein the award is 25 predetermined.

Claim 55 (original): The gaming device of Claim 22, wherein the award is determined based on a wager made by the player.

Claim 56 (original): The gaming device of Claim 22, which includes a bonus award provided to the player when the player picks a plurality of the selections in one of the rounds.

Claim 57 (original): The gaming device of Claim 22, which includes a bonus award provided to the player when the player picks all of the selections in one of the rounds.

Claim 58 (original): The gaming device of Claim 22, which includes a bonus award provided to the player when the player picks all of the selections in a plurality of the rounds.

Claim 59 (original): The gaming device of Claim 22, which includes a bonus award provided to the player when the player picks all of the selections in all of the rounds.

Claim 60 (original): The gaming device of Claim 22, wherein at least one of the selections includes a modifier.

Claim 61 (original): The gaming device of Claim 60, wherein the modifier includes a multiplier.

Claim 62 (original): A gaming device comprising:

- a game;
- a plurality of rounds in the game;
- a plurality of selections, each of the selections having at least two characteristics, wherein one of the selections is picked to initially function as a base; and
- a processor operable to:
 - (i) determine a number of rounds in the game based on a wager made by a player;
 - (ii) determine a number of the selections to display to a player in each of the rounds based on the wager made by the player;
 - (iii) enable the player to pick selections in an initial round until none of the characteristics of the unpicked selections match one of the characteristics of the base or the previously picked selection which is functioning as the base, or until there are no selections remaining;
 - (iv) sequentially replace the base with each of the picked selections in the round;
 - (v) determine an award based on the picked selections 20 which include at least one characteristic that matches one of the characteristics of the base;
 - (vi) initiate any remaining subsequent round when at least one characteristic of each of the selections in the initial round matches one of the characteristics of the base; and
 - (vii) provide a total award to the player associated with the determined award in each of the rounds when none of the characteristics of the unpicked selections match one of the characteristics of the base in one of the rounds or when there are no rounds remaining in the game.

Claim 63 (original): The gaming device of claim 62, wherein a randomly generated selection replaces each of the picked selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 64 (original): The gaming device of Claim 62, wherein each of the picked selections is removed when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 65 (original): The gaming device of claim 62, wherein a randomly generated selection replaces the base when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 66 (original): The gaming device of Claim 62, wherein the base and the selections include cards selected from at least one deck of playing cards.

Claim 67 (original): The gaming device of Claim 62, which includes a functional element associated with at least one selection.

Claim 68 (original): The gaming device of Claim 67, wherein the functional element is a wild characteristic.

Claim 69 (original): The gaming device of Claim 68, wherein the base includes a wild characteristic.

Claim 70 (original): The gaming device of Claim 62, wherein at least one of the selections includes a modifier.

Claim 71 (original): The gaming device of Claim 70, wherein the modifier is a multiplier.

Claim 72 (original): A gaming device comprising:

a game;

a plurality of rounds in the game;

a base card in each round including at least two characteristics;

a plurality of card selections including at least two characteristics; and

a processor operable to:

(i) determine a number of rounds in the game based on 10 a wager made by the player;

(ii) determine a number of the card selections to display to a player in each of the rounds based on the wager made by the player;

(iii) enable the player to pick card selections in an initial round until none of the characteristics of the unpicked card selections match one of the characteristics of the base card or until there are no card selections remaining;

(iv) determine an award based on the picked card selections which include at least one characteristic that matches one of 20 the characteristics of the base card;

(v) initiate a subsequent round when at least one characteristic of each of the card selections in the initial round matches one of the characteristics of the base card and the wager amount made by the player is equal to or greater than a designated wager amount; and

(vi) provide a total award to the player associated with the determined award in each of the rounds when none of the characteristics of the unpicked card selections match one of the characteristics of the base card in one of the rounds or when there are no rounds remaining in the game.

Claim 73 (original): The gaming device of Claim 72, wherein one of the characteristics is a wild characteristic.

Claim 74 (original): The gaming device of Claim 72, wherein at least one of 5 the card selections includes a modifier.

Claim 75 (original): The gaming device of Claim 74, wherein the modifier is a multiplier.

Claim 76 (original): A method of operating a gaming device having a game comprising:

- (a) determining a number of selections to display in the game based on a wager made by the player;
- (b) displaying a base including at least two characteristics to the player;
- (c) displaying the determined number of selections, each of the selections including at least two of the characteristics;
- (d) enabling a player to pick one of the selections;
- (e) repeating step (d) until none of the characteristics 20 of the unpicked selections match one of the characteristics of the base or until there are no selections remaining;
- (f) determining an award based on the picked selections which include at least one characteristic that matches one of the characteristics of the base; and
- (g) providing the award to the player.

Claim 77 (original): The method of Claim 76, wherein the step of determining the number of selections includes randomly determining the number of selections.

Claim 78 (original): The method of Claim 76, wherein the step of determining the number of selection includes pre-determining the number of selections.

Claim 79 (original): The method of Claim 76, which includes the step of replacing the base with each of the picked selections for subsequent selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 80 (original): The method of claim 76, which includes the step of replacing the base with a randomly generated selection for each of the picked selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 81 (original): The method of Claim 76, which includes the step of removing each of the picked selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 82 (original): The method of Claim 76, which includes the step of selecting each characteristic of the base and the selections from a set of characteristics, wherein the number of characteristics in each set of characteristics is equal.

Claim 83 (original): The method of Claim 76, which includes the step of selecting each characteristic of the base and the selections from a set of characteristics, wherein the number of characteristics in each set of characteristics is unequal.

Claim 84 (original): The method of Claim 76, wherein the base and the selections include cards selected from at least one deck of playing cards.

Claim 85 (original): The method of Claim 76, which includes the step of associating a functional element with at least one of the selections.

Claim 86 (original): The method of Claim 85, wherein the functional element is a wild characteristic.

Claim 87 (original): The method of Claim 86, wherein the base includes a wild characteristic.

Claim 88 (original): The method of Claim 76, wherein the step of determining the award includes determining the award based on the number of picked selections which includes at least one characteristic that matches one of the characteristics of the base.

Claim 89 (original): The method of Claim 77, which includes the step of increasing the award for each subsequent picked selection which includes at least one characteristic that matches one of the characteristics of the base.

Claim 90 (original): The method of Claim 77, wherein the step of determining the award includes determining the award based at least one of the characteristics of the selections that matches any of the characteristics of the base.

Claim 91 (original): The method of Claim 90, wherein the award associated with each of the characteristics is different.

Claim 92 (original): The method of Claim 90, wherein the awards associated with a plurality of the characteristics are different.

Claim 93 (original): The method of Claim 90, wherein the award associated with a wild characteristic is different from the awards associated with the other characteristics.

Claim 94 (original): The method of Claim 76, which includes the step of providing a bonus award to the player when the player matches a plurality of the selections with the base in the game.

Claim 95 (original): The method of Claim 76, which includes the step of providing a bonus award to the player when the player matches all of the selections with the base in the game.

Claim 96 (original): The method of Claim 76, wherein at least one of the selections includes a modifier.

Claim 97 (currently amended): The method of Claim 96 ~~98~~, wherein the modifier is a multiplier.

Claim 98 (original): The method of Claim 76, wherein the steps (a) to (g) are provided to the player through a data network.

Claim 99 (currently amended): The method of Claim 98 ~~100~~, wherein the data network is an internet.

Claim 100 (original): A method of operating a gaming device having a game including a plurality of rounds, the method comprising:

- (a) determining a number of rounds in the game based on a wager made by a player;
- (b) determining a number of selections to display in each of the rounds based on the wager made by the player;
- (c) displaying a base including at least two characteristics in an initial round;
- (d) displaying the determined number of selections each including at least two of the characteristics in the round;
- (e) enabling a player to pick one of the selections;
- (f) repeating step (e) until none of the characteristics of the unpicked selections match one of the characteristics of the base or until there are no selections remaining;
- (g) determining an award for the round based on the picked selections which include at least one characteristic that matches one of the characteristics of the base;
- (h) initiating a subsequent round in the game when the determined number of rounds has not been reached, when at least one characteristic of each of the selections in the initial round matches one of the characteristics of the base and when the wager amount made by the player is equal to or greater than a designated wager amount;
- (i) repeating steps (d) to (h) until the determined number of rounds has been reached in the game; and
- (j) providing a total award to the player associated with the determined award in each of the rounds in the game.

Claim 101 (currently amended): The method of Claim 100, wherein the step of determining the number of rounds in the game includes randomly determining the number of rounds.

Claim 102 (currently amended): The method of Claim 100 ~~402~~, wherein the step of determining the number of rounds in the game includes pre-determining the number of rounds.

Claim 103 (currently amended): The method of Claim 100 ~~402~~, wherein the step of determining the number of selections in each of the rounds includes randomly determining the number of selections.

Claim 104 (currently amended): The method of Claim 100 ~~402~~, wherein the step of determining the number of selection in each of the rounds includes pre-determining the number of selections.

Claim 105 (currently amended): The method of Claim 100 ~~402~~, which includes the step of replacing the base with each of the picked selections for subsequent selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 106 (currently amended): The method of Claim 100 ~~402~~, which includes the step of replacing the base with a randomly generated selection for each of the picked selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 107 (currently amended): The method of Claim 100 ~~402~~, which includes the step of removing each of the picked selections when at least one of the characteristics of each of the picked selections matches one of the characteristics of the base.

Claim 108 (currently amended): The method of Claim 100 ~~402~~, which includes the step of associating a modifier with each of the rounds, wherein the total award is based on the determined award or awards modified by the modifier in each of the rounds.

Claim 109 (currently amended): The method of Claim 108 ~~440~~, wherein the modifier is different in each of the rounds.

Claim 110 (currently amended): The method of Claim 108 ~~440~~, wherein the modifier is different in a plurality of the rounds.

Claim 111 (currently amended): The method of Claim 108 ~~440~~, wherein the modifier increases, decreases or remains unchanged in each of the rounds.

Claim 112 (currently amended): The method of Claim 108 ~~440~~, wherein the modifier increases, decreases or remains unchanged in a plurality of rounds.

Claim 113 (currently amended): The method of Claim 108 ~~440~~, wherein the modifier associated with each of the rounds is randomly determined.

Claim 114 (currently amended): The method of Claim 108 ~~440~~, wherein the modifier associated with each of the rounds is predetermined.

Claim 115 (currently amended): The method of Claim 108 ~~440~~, wherein the modifier associated with each of the rounds is determined based on a wager made by the player.

Claim 116 (currently amended): The method of Claim 108 ~~440~~, wherein the modifier associated with each of the rounds includes a multiplier.

Claim 117 (currently amended): The method of Claim 100 ~~402~~, which includes the step of selecting each characteristic of the base and the selections from a set of characteristics, wherein the number of characteristics in each set of characteristics is equal.

Claim 118 (currently amended): The method of Claim 100 ~~402~~, which includes the step of selecting each characteristic of the base and the selections from a set of characteristics, wherein the number of characteristics in each set of characteristics is unequal.

Claim 119 (currently amended): The method of Claim 100 ~~402~~, wherein the base and the selections include cards selected from at least one deck of playing cards.

Claim 120 (currently amended): The method of Claim 100 ~~402~~, which includes the step of associating a functional element with at least one selection.

Claim 121 (currently amended): The method of Claim 120 ~~422~~, wherein the functional element is a wild characteristic.

Claim 122 (currently amended): The method of Claim 121 ~~423~~, wherein the base includes a wild characteristic.

Claim 123 (currently amended): The method of Claim 100 ~~402~~, wherein the step of determining the award includes determining the award based on the number of picked selections which includes at least one characteristic that matches one of the characteristics of the base.

Claim 124 (currently amended): The method of Claim 100 ~~402~~, which includes the step of increasing the award for each subsequent picked selection which includes at least one characteristic that matches one of the characteristics of the base.

Claim 125 (currently amended): The method of Claim 100 ~~402~~, wherein the step of determining the award includes determining the award based at least one of the characteristics of the selections that matches one of the characteristics of the base.

Claim 126 (currently amended): The method of Claim 125 ~~427~~, wherein the award associated with each of the characteristics is different.

Claim 127 (currently amended): The method of Claim 125 ~~427~~, wherein the awards associated with a plurality of the characteristics are different.

Claim 128 (currently amended): The method of Claim 125 ~~427~~, wherein the award associated with a wild characteristic is different from the awards associated with the other characteristics.

Claim 129 (currently amended): The method of Claim 100 ~~402~~, wherein the award is different in each of the rounds.

Claim 130 (currently amended): The method of Claim 100 ~~402~~, wherein the award is different in a plurality of the rounds.

Claim 131 (currently amended): The method of Claim 100 ~~402~~, wherein the step of determining the award includes randomly determining the award.

Claim 132 (currently amended): The method of Claim 100 ~~402~~, wherein the step of determining the award includes pre-determining the award.

Claim 133 (currently amended): The method of Claim 100 ~~402~~, wherein the step of 30 determining the award includes determining the award based on a wager made by the player.

Claim 134 (currently amended): The method of Claim 100~~402~~, which includes the step of providing a bonus award to the player when the player picks a plurality of the selections in one of the rounds.

Claim 135 (currently amended): The method of Claim 100~~402~~, which includes the step of providing a bonus award to the player when the player picks all of the selections in one of the rounds.

Claim 136 (currently amended): The method of Claim 100~~402~~, which includes the step of providing a bonus award to the player when the player picks all of the selections in a plurality of the rounds.

Claim 137 (currently amended): The method of Claim 100~~402~~, which includes the step of providing a bonus award to the player when the player picks all of the selections in all of the rounds.

Claim 138 (currently amended): The method of Claim 100~~402~~, wherein at least one of the selections includes a modifier.

Claim 139 (currently amended): The method of Claim 138~~440~~, wherein the modifier is a multiplier.

Claim 140 (currently amended): The method of Claim 100~~402~~, wherein the steps (a) to (j) are provided to the player through a data network.

Claim 141 (currently amended): The method of Claim 140~~442~~, wherein the data network is an internet.

Claim 142 (original): A method of operating a gaming device having a game including a plurality of rounds, the method comprising:

- (a) displaying a base card including at least two characteristics in an initial round of a plurality of rounds determined by 5 a wager made by a player;
- (b) determining a number of selections to display to the player in the round based on the wager made by the player;
- (c) displaying the determined number of card selections including at least two of the characteristics to the player in the round;
- (d) enabling the player to pick one of the card selections;
- (e) repeating step (d) until there are no card selections in the round that include at least one characteristic that matches one of the characteristics of the base card;
- (f) determining an award based on the number of picked selections which include at least one characteristic that matches one of the characteristics of the base card;
- (g) repeating steps (d) to (f) for any remaining round 20 until there are no rounds remaining in the game; and
- (h) providing a total award to the player associated with the determined award in each of the rounds in the game.

Claim 143 (currently amended): The method of Claim 142 ~~144~~, wherein at least one of the card selections includes a modifier.

Claim 144 (currently amended): The method of Claim 143 ~~145~~, wherein the modifier is a multiplier.

Claim 145 (currently amended): The method of Claim 142 ~~144~~, wherein the steps (a) to (i) are provided to the player through a data network.

Claim 146 (currently amended): The method of Claim 145 ~~147~~, wherein the data network is an internet.

Claim 147 (original): A gaming device comprising:

- (i) a game;
- (ii) a plurality of rounds in the game;
- (iii) a base selection in each round including at least two characteristics;
- (iv) a plurality of selections including at least two characteristics; and
- (v) a processor operable to:
 - (i) determine a number of rounds in the game based on a wager made by the player;
 - (ii) determine a number of the selections to display to a player in each of the rounds based on the wager made by the player;
 - (iii) enable the player to pick selections in an initial round until none of the characteristics of the unpicked card selections match one of the characteristics of the base selection or until there are no selections remaining;
 - (iv) determine an award based on the picked selections which include at least one characteristic that matches one of the characteristics of the base card;
 - (v) initiate a subsequent round when at least one characteristic of each of the selections in the initial round matches one of the characteristics of the base card and the wager amount made by the player is equal to or greater than a designated wager amount; and
 - (vi) provide a total award to the player associated with the determined award in each of the rounds when none of the characteristics of the unpicked selections match one of the characteristics of the base selection in one of the rounds or when there are no rounds remaining in the game.
